5500

The North 5500 is the economical choice for the occasional user, contractors or as a "visitor's mask". The North 5500 has many of the same features as the 7700 mask, but made with an elastomeric material.

GENERAL

Can be adapted to PAPR or Supplied Air • Flexible for multiple work environments • No need to inventory, train workers and fit test

them on several respirators

Only 9 replacement parts – and all parts are replaceable • Quick and easy to strip down and clean • Cost savings in maintenance

• Less inventory

Both the 7700 & 5500 are latex free • No latex allergens • Safe for your workers with allergies

Low "dead air" space • Less exhaled breath is re-breathed • Increased worker productivity

Strategic placement of exhalation valve • More breath is exhaled out of the mask faster • Workers feel cooler, more comfortable

FACESEAL

Variable thickness in sealing area • Nose area is flexible enough to conform to the bridge • Superior comfort without sacrificing fit

of the nose, but not too thin to collapse

• Built up chin area supports the mask, maintains fit even while the wearer is talking

• Sides are medium thickness to maintain a seal without pressure points.

Wide, contoured sealing area • Improved fit for more facial types • More people will fit in a medium, so you have less inventory of alternate sizes

Overlapping sizes • Fits a wider range of facial types • Get the best fit possible for each of your workers

HEAD STRAP

Expanded angle on cradle suspension is fixed • More secure fit that will not slip • Ideal for workers in active jobs into position • Workers can not wear it incorrectly • Less training on proper donning

Headstraps have dual elasticity • Holds the respirator in place • More secure fit

Top straps have less stretch • No constraints as worker turns head side to side • More comfortable, will not pinch

Bottom straps provide more stretch • Will not pull on the mask and jeopardize the seal

'Parking' feature • Mask is still handy and at the ready when not worn • Workers can get back to work quickly after a break

MASK MATERIAL

Both the 7700 & 5500 are latex free
